

Consultation and Medical Consultations Regarding Novel Coronavirus

(February 27, 2020)

Japan Ministry of Health, Labor and Welfare issued the criteria for consultation on February 17, 2020.

Please contact the consultation center if you fall under the following conditions.

- Cold symptoms and/or a fever of 37.5°C or above for four consecutive days or more
- Strong drowsiness (malaise) or difficulty breathing (dyspnea)

The following people are more likely to become seriously ill. If you are one of the following, please follow the procedure if conditions persist for two days:

- Senior citizen
- Patient with diabetes, heart failure, respiratory disease or who are on dialysis
- Those who use immunosuppressant or anticancer drugs
- Pregnant women

Contact the consultation center in Shimane* and visit the medical institute following their instructions

You will be suspended from attending classes and/or work in the case you have been diagnosed with the infectious disease or diagnosed to be suspected to have contracted the infection
